# CONQUER<sup>20</sup>

# Conquer20 Grinder

Introducing the all new, Innovative, Conquer20!

The Conquer20 Grinder/Polisher is equipped with a sturdy, well balanced chassis and a powerful 5HP cast iron motor that provides the floor flattening capabilities of larger machines, while allowing the maneuverability of a smaller foot print.

The Conquer20 is available in two models; the economical single speed version to fit the budget of most residential/light commercial contractors and a more versatile variable speed model for the larger contractor's that are needing versatility and have a heavy focus on polishing.

The Conquer20 is fitted with the Magnetic Quick Disconnect (QD) Tooling for fast and easy tool changing and durability on the jobsite.

## Features & Benefits

Conquer20 is a three(3) headed planetary movement machine best suited for small to medium jobs.

Available in Single Speed and Variable Speed models.

Designed for both wet and dry applications

Conquer 20 connects to the KleanRite™ Vacuum Systems.

Modular design construction for easy transport and service.

## Quick Disconnect (QD) Magnetic Tooling

Kut-Rite's new Quick Disconnect tool mounting design is redefining how diamond tools are mounted. The QD system incorporates two locating pins, for precise tool positioning and the use of powerful neodymium rare earth "super magnets" to hold the tools in place. The result of this combination produces a tool system that allows quick and precise placing of tools for smooth running, holding power that virtually eliminates tool kick out during operation and extremely fast removal/insertion time.

Model	HP	Power Source	Weight
Conquer20 Single Speed	5	220V 1PH	346lbs*
Conquer20 Variable Speed	5	220V 1PH	392lbs*
