

SelectSpot™

Carpet Spot Extractor

The Kent SelectSpot™ does “touch-up” cleaning on carpets, and cleans congested or hard-to-reach areas like stairs, upholstery, even automobile interiors. The hand-held tool dispenses solution and vacuums-up the dirty solution. Hand-carried or cart-mounted, the portable SelectSpot easily moves from job to job. The optional cart carries the power cord, hoses, cleaning tools and chemicals everywhere you need to go.

The SelectSpot is a rugged, commercial-duty carpet extractor designed for longevity under heavy use. It features a performance-matched pump with a powerful vacuum motor that leaves carpets clean, with minimal moisture, so they dry quickly to resume normal use. The Kent SelectSpot comes with a 6 ft (1.8 m) hose and a standard hand tool.

The SelectSpot™ is perfect for...

- Hospitals/Clinics with Waiting Rooms
- Hotels and Motels
- Restaurants
- Retail Outlets
- Schools
- Automobile Upholstery

Specifications are subject to change without notice.

Power cord detaches so operator doesn't have to wind and carry it when going to empty/refill the tanks. Stores on cart.

Clear plastic hand tool permits observation of actual recovery, so operator knows the machine is working.

The SelectSpot™ optional cart carries the power cord, hoses, cleaning tools and chemicals onboard
